

## System Requirements / Customer Info for High Voltage Contactor Applications

Parameter	Value
Account Name	
System Voltage	
Continuous or RMS current (if current profile is available, please include)	
Current on MAKE (is there current when <b>closing</b> contacts)	
Current on BREAK (is there current when <b>opening</b> contacts)	
Bi-directional switching required?	
Fault Interrupt (max current required to break, 1 cycle)	
Auxiliary contacts requested	
Coil Voltage	
Coil Economizer requested (or list max coil current allowed)	
Space / Size requirements or limits	
Other comments / critical info
